September 2020

Dear Parents:

Parents often request a listing of suggested school supplies needed at each grade level. I spoke with faculty members regarding their needs beyond the supplies that the school purchases for student use during the academic year. Their **recommendations** regarding school supplies needed for the 2020-2021 academic year follow.

We know that students often enter a school supply store and indicate many items that they “need” for the new school year. We hope that this list aids in purchasing only what the true needed materials are as a new school year begins.

Sincerely,

Donna Moffat
